

PORTLAND CAR & FOUNDRY

HO Scale Model Railroad decals

PC&F offers Steam and Transition Era data and rolling stock decal sets for Box, wood chip, gondolas, flats, caboose and covered hoppers. M of W for "fallen flat lines" are either in stock or under construction. We also provide complete passenger car sets for the *Great Northern*, *Empire Builder* and *Northern Pacific North Coast Limited*.

Model railroad decals are essential for people who build or modify rolling stock for private or commercial use. Portland Car & Foundry (PC&F) fills part of an enormous decal void left by the closure of Champion Decal Company. In addition to our own decals, PC&F purchased a small stock of Champ decals for future sales. For roads not listed here, please contact: greatdecals.com for many eastern and mid-west railroads

Frt Charges

Decal orders please add \$2.00 United States
Foreign orders please add for USPS Priority Mail

Class	Part No.	Description
AAR Classifications used here		
BME		Baggage, mail, and express cars
